

SENTRY AV ORNACYCLINE - tetracycline hydrochloride powder
Sergeant's Pet Care Products, Inc.

INDICATIONS & USAGE

Aids in the treatment of respiratory and intestinal bacterial infections of pet birds.

- Treats most common bird respiratory ailments and intestinal bacterial infections
- Special formulation for birds
- Citrus flavored, fast dissolving powder
- Safe to use with all species of birds

Obvious changes in a bird's appearance or behavior indicate the bird is sick. Symptoms include not eating, ruffled feathers, labored breathing, sneezing, diarrhea.

INSTRUCTIONS

Ailing birds - For small birds (i.e. canary) use one packet per eight ounces of water. For larger birds (i.e. mynah), use two packets per eight ounces of water. Use as the bird's only drinking water for five days. Make a fresh solution every day. For best results, use distilled water. If no water is consumed for 48-72 hours or bird's condition gets worse, consult your veterinarian.

PRECAUTIONS

Read instructions before using. This product is intended for exclusive use with pet birds and is not intended for use with poultry for human consumption. Not for human consumption.
